History of the Silverton Memorial Hall

The Silverton Memorial Hall was built in the 1920's in memory of those soldiers from the Slocan Valley who died in the First World War. In 2008 a second plaque was added to commemorate those killed in World War II.

The Memorial Hall has been the pride and focal point of our community with many groups contributing labour and materials to make the Hall the showpiece it is today.

Silverton Memorial Hall

View of Hall from Balcony

The Silverton Memorial Hall is the crown jewel in our small community. Over the years members of the community and Village Councils have invested countless hours and resources to make this facility a

showpiece of the Slocan Valley. With a seating capacity of up to 200 and excellent acoustics it is the ideal setting for dances, weddings, reunions, concerts, community meetings and funerals/memorial services. The hall is an ideal venue for presentations, slide shows or movies.

Over the past three years the Memorial Hall has undergone extensive renovations to modernize and improve facilities. Thanks to a 2010 Legacy Grant and the assistance of many community groups and organizations the Hall is the premier venue in the West Kootenays.

Typical Banquet Setting

The Memorial Hall now features new washrooms, a modern commercial kitchen, new tables and chairs, staging, lighting system, sound system, LCD projector and 200 inch screen. The floor has been refinished and both interior and exterior repainted.

Full Internet access and satellite TV are available.

Kitchen Facilities

Kitchen

The Memorial Hall has a modern fully equipped commercial kitchen, featuring a six burner stove, grill and two ovens., a large commercial refrigerator and dishwasher including a stainless steel prep table in the center. Dishes, cups, saucers, cutlery and glasses are available for rental, and the kitchen is equipped with basic serving utensils.

Portable staging and risers are available for concerts and bands. Overhead spot lamps provide stage lighting.

A 6000 lumen LCD projector and 200 inch screen available for movies and presentations. Our full sound system features, two DVD/CD players and a mixing board with both wired and wireless microphone system including lapel mikes. Satellite TV and full Internet connectivity are part of the sound system. Your prerecorded music easily ties into our sound system or you can hire a DJ.
